

ES

LEXUS | 2013

INNOVATION ELEVATED to an art form.

INTRODUCING THE ALL-NEW ES AND FIRST-EVER ES HYBRID

When you combine captivating design, state-of-the-art technology and an available hybrid that blends world-class luxury with new levels of efficiency, prepare to be moved like never before. Where a bold spindle grille and sleek lines combine to form a singular presence. A longer wheelbase and redesigned suspension system create an exhilarating connection to the road. And a more spacious, modern interior offers the unprecedented convenience of mobile connectivity. This is the all-new ES and first-ever ES Hybrid: unparalleled innovation, now in an unforgettable form.

THE ALL-NEW ES 350 | in Starfire Pearl

Progress has a new face. The distinctive lines of the ES 350 draw you into the modern design of its spacious interior. Inside, you'll find a host of amenities, including 10-way power front seats and an available Navigation System¹ that offers seamless connectivity to mobile apps. Ignite the 268-horsepower V6 engine and you'll discover an additional type of connection: where its rigid body and a new independent suspension combine to grip the road, helping to provide greater control and more precise handling.

THE ALL-NEW ES 300h HYBRID | in Nebula Gray Pearl

Defying compromise, raising expectations and changing the category in one breathtaking move, the all-new Lexus ES 300h hybrid combines substantial performance with an impressive 40 mpg² combined rating by pairing the ingenuity of an advanced Lexus Hybrid Drive system with the efficiency of an Atkinson-cycle engine. Among its exclusive touches, it offers sustainable bamboo trim, a unique wheel design and a lower rear valance that further accentuates its sleek exterior lines by concealing the exhaust.

ENFORM APP SUITE

The available Lexus Enform^{®3,4} App Suite⁵ uses your compatible smartphone to give you in-vehicle access to your favorite mobile applications. You can connect to Bing,[™] iHeartRadio, MovieTickets.com, OpenTable,[®] Pandora,^{®6,7} Yelp[®] and Facebook Places. And, with wireless updates, new apps will be added as they become available.

Learn more at lexus.com/ES/enform.

Sculpted lines meet SEAMLESS CONNECTIVITY.

From the moment you open the door, you'll discover this is far more than a cabin. It's the intersection of captivating design and cutting-edge technology. Stretched across the elegant lines of the dash, contrasting stitching and stunning available wood trim accentuate its spaciousness. Available ambient lighting adds intrigue to its contemporary design. Look deeper and you'll find innovative thinking at every turn. Among its many advancements, an available next-generation Remote Touch⁸ device provides effortless control of an array of features and an available Navigation System¹ offers convenient access to mobile apps,⁵ a live response center agent and destinations entered from your computer.

THE 40 MPG*-RATED ES HYBRID.

THE SEEMINGLY IMPOSSIBLE MADE IRRESISTIBLE.

Introducing the first-ever ES Hybrid: a vehicle so groundbreaking, it not only exceeds expectations, it redefines its category. Providing expansive space and impeccable refinement, it's a stunning achievement in luxury. But its remarkable interior is only the beginning. It also features a better fuel economy rating than most subcompact cars⁹ and has earned the stringent SULEV emission status. Isn't progress a beautiful thing?

EXCLUSIVE STYLING

Among its exquisite amenities, the ES Hybrid offers a steering wheel and accents handcrafted with sustainable bamboo. As well as seating trimmed in available denim-resistant leather, semi-aniline leather or an innovative material called Lexus NuLuxe. Compared to other synthetic leathers, its manufacturing process generates no VOCs and 65% fewer CO₂ emissions. Exclusive exterior enhancements include a unique 17-inch wheel¹⁰ design, an extended rear valance that discreetly conceals the exhaust, and an aerodynamic rear spoiler that further improves efficiency.

A SPACIOUS INTERIOR SO INDULGENT, IT EVEN OFFERS A VIEW.

You don't have to sit in the driver's seat to appreciate the uncompromising luxury offered by the new ES. Making the most of the additional space provided by its longer platform, rear-seat passengers will revel in the comfort of its generous headroom and legroom. And, filling this exquisite space with incomparable sound, an available 15-speaker, 835-watt Mark Levinson® Premium Surround Sound Audio System¹¹ provides sound quality on par with the finest concert halls. Not sure which song to choose? Using nothing more than your voice, innovative Gracenote® technology can search your playlist by artist, genre or year, and even create mixes on the fly.

ULTRA LUXURY PACKAGE

Providing a level of luxury rivaling the finest sedans in the world, the Ultra Luxury Package features seating trimmed in soft, semi-aniline leather to complement the hand-selected wood trim. The driver's seat cushion extends at the push of a button, providing additional thigh support. And a power rear sunshade, rear-side window shades and, in the ES 350, the luxury of a panoramic glass roof overhead elevate the rear-seat experience to new heights.

A PRECISELY TUNED SUSPENSION

The suspension system on the all-new ES was engineered for exhilaration. In the shock absorbers, new valving and reduced friction help enhance ride comfort and linear steering response. New opposite-wound front coil springs are designed to help improve straight-line control. And, new rear-suspension geometry helps provide better agility and overall control.

The all-new ES leaves an indelible impression, whether moving or not. The striking stance of its longer wheelbase and lower profile commands attention. Its sculpted lines, available 18-inch wheels¹² and distinctive LED daytime running lights turn heads. Set in motion, it becomes even more impossible to ignore. Its lighter, more rigid body and a new, more dynamic suspension combine to help deliver precise handling through turns and added stability on straightaways. It just may be the most captivating blur you'll ever encounter.

PERFORMANCE

as stirring as its design.

DRIVE MODE SELECT

Customize the performance of the ES with Drive Mode Select. In ECO mode, a calming blue light surrounds the gauge cluster while climate and throttle settings are optimized for increased fuel efficiency. Normal mode offers the optimal balance of comfort and performance. Sport mode changes the gauge cluster lighting to a fiery red, replaces the ES 300h Hybrid System Indicator with a tachometer, enhances the steering feel and increases the throttle response for more dynamic acceleration.

EMBRACES ALL ASPECTS OF THE DRIVER.
Even their whims.

INTUITIVE DESIGN

The interior of the ES proves the best automotive design doesn't come from studying automobiles, but rather drivers. The shape of the available Remote Touch[®] device is based on the curves of the human palm. Its motion mimics a computer mouse. A new steering wheel was crafted specifically to fit perfectly in your hands regardless of their placement. And, to help keep your focus on the road ahead, the center display is purposely positioned closer to the driver's natural line of sight.

DRIVER POSITION

Settle into the bolstered, 10-way power driver's seat, grab hold of the LFA-inspired steering wheel, place your feet upon the pedals and you'll immediately sense that all three aspects were designed in tandem to achieve optimal driver engagement and comfort. And, to ensure that every driver can fully enjoy all this engineering, available memory recalls up to three personalized driving positions (including seat, steering wheel and outer mirror positions) at the touch of a button.

Whether you're in the mood to relax in world-class comfort or eager to impose your will on an unsuspecting stretch of winding road, the level of engagement you crave can vary. Now, with a turn of the innovative Drive Mode Select switch, so does the ES. From the efficiency of ECO mode to the added responsiveness of Sport mode, it's just one of the many ways ES was designed with the driver in mind.

**BLIND SPOT MONITOR
WITH REAR CROSS-TRAFFIC ALERT**

Accidents can happen anywhere, from parking lots to major highways. Fortunately, the ES offers two new ways designed to help you avoid both. For the first time on a Lexus, the available Blind Spot Monitor¹³ features an ingenious Rear Cross-Traffic Alert system that can help detect and warn you of vehicles approaching from behind on either side as you back out of a parking space. And, at speeds above 10 mph, the Blind Spot Monitor can help you change lanes more safely by warning you if it detects vehicles in the adjacent lanes.

EYE-OPENING.
Even in places you can't see.

Of all the areas worthy of focus on the all-new ES, among the most important is its focus on helping to keep you safe. In addition to offering an ingenious system designed to help warn you of adjacent vehicles when changing lanes,¹³ available Lane Departure Alert¹⁴ helps detect visible lane markings, and if you veer, it can warn you with audible and visual cues. Available intelligent high-beam headlamps¹⁵ automatically switch to low-beam when they sense headlamps or taillamps ahead. And in the event that your vehicle's airbags¹⁶ deploy, or you're involved in a serious rear-end collision, available Safety Connect¹⁷ can even contact a response center agent who can notify local emergency services and direct them to your vehicle's location.

PRE-COLLISION SYSTEM

To help you prepare for and, if possible, avoid potential collisions, an available Pre-Collision System¹⁸ with Dynamic Radar Cruise Control¹⁹ is designed to monitor the road ahead for obstacles and warn you of their presence with beeps and visible indications. It can even begin braking automatically before impact.

**CLASS-LEADING STANDARD
10-AIRBAG SYSTEM**

The ES features a class-leading standard 10-airbag system¹⁶ and new Whiplash Injury Lessening (WIL) front seats²⁰ designed to help decrease the severity of whiplash-type injuries in certain rear collisions.

Remote engine starter²⁶

LUXURY FEATURES

LUXURY AND CONVENIENCE

SmartAccess^{26,27} with push-button Start/Stop

Dual-zone automatic climate control with interior air filter, smog sensor and automatic recirculation mode

NuLuxe-trimmed interior

Power tilt-and-slide moonroof with one-touch open/close and sliding sunshade

Power windows with one-touch auto open/close feature

Remote-linked window and moonroof opening

Retained accessory power for moonroof and windows

Electrochromic (auto-dimming) inside rearview mirror

Cruise control

Center console with storage bin and accessory power outlet

Dual cupholders, front and rear

HomeLink[®] universal transceiver to operate compatible garage, gate, home lighting and home security systems

Illuminated entry system

SEATING AND TRIM

Piano Black interior trim

10-way driver's and front passenger's (including lumbar) power seats

Height-adjustable headrests for all seats

COMMUNICATION, AUDIO AND NAVIGATION

Lexus eight-speaker, Premium Sound System with Automatic Sound Levelizer (ASL) and CD player

SiriusXM Satellite Radio^{1,28} Subscription required. 90-day trial subscription included

USB and auxiliary iPod^{®29}/MP3/Windows Media[®] Audio (WMA) port

Bluetooth[®] technology³⁰

Bluetooth audio³¹ profile for wireless integration of compatible music players with in-vehicle audio system controls

In-glass antenna with FM-diversity system

Shark-fin antenna

INSTRUMENTATION AND CONTROLS

Steering-wheel-mounted audio, phone and display controls

Liquid crystal multi-information console display

Electroluminescent instrumentation

Drive Mode Select with ECO, Normal and Sport modes (ES)

Drive Mode Select with ECO, Normal, Sport and EV modes²¹ (ESh)

Dynamic tachometer and Hybrid System Indicator, based on selected drive mode (ESh)

ECO Driving indicator

Automatic on/off projector-beam headlamps with auto-off delay

SAFETY AND SECURITY FEATURES

ACTIVE SAFETY

Vehicle Stability Control (VSC)³³

Traction Control (TRAC)

Four-wheel power-assisted disc brakes with front ventilated discs

Four-sensor, four-channel Anti-lock Braking System (ABS)

Brake Assist²²

Electronic Brakeforce Distribution (EBD)

Smart Stop Technology³⁴

Variable intermittent windshield wipers

Direct Tire Pressure Monitor System³⁵

Integrated foglamps

PASSIVE SAFETY

Driver's and front passenger's advanced airbag system (SRS)¹⁶ with front passenger's twin-chamber airbag (SRS)¹⁶

Front and rear seat-mounted side airbags (SRS)¹⁶

Driver's and front passenger's knee airbags (SRS)¹⁶

Front and rear side curtain airbags (SRS)¹⁶

Three-point seatbelts for all seating positions, pre-tensioners with force limiters for front and outboard rear seats

Height-adjustable front shoulder belt anchors

Highly rigid body structure with front and rear crumple zones

Side-impact door beams

SECURITY

Vehicle theft-deterrent and engine immobilizer system²⁶

Safety Connect^{3,17} offers Automatic Collision Notification, Stolen Vehicle Location, Emergency Assistance Button (SOS) and Enhanced Roadside Assistance³⁶ connectivity. Subscription required. One-year subscription included

REMOTE TOUCH

Included with the available Navigation System¹, the ergonomic Remote Touch⁸ device functions similarly to a mouse, providing the driver and front passenger with convenient access to a range of features.

XM SERVICES

With available XM Data Services, you can receive real-time weather and traffic reports, browse local fuel prices and follow your favorite sports teams and investments.^{1,28}

*Please see back cover for more information regarding options/packages.

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Eight-year/100,000-mile Hybrid System Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *ES Warranty and Services Guide* at your Lexus dealer for details.

1. Availability and accuracy of the information provided by the Navigation System or any SiriusXM services mentioned (if installed) are dependent upon many factors. Use common sense when relying on information provided. Services not available in every city or roadway. Periodic Navigation updates available at additional cost. Please see your *Navigation System Owner's Manual* or contact SiriusXM for details. **2.** 2013 EPA city/highway/combined. Actual mileage will vary. **3.** Contact with the Lexus Enform and/or Safety Connect response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Lexus Enform- and Safety Connect-equipped vehicles. Additional subscription terms available; charges vary by subscription term selected. **4.** Lexus Enform premium services Destination Assist and eDestination will function in the contiguous United States. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States. **5.** Always drive safely, obey traffic laws and focus on the road while driving. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data, you are responsible for charges. Apps/services are subject to change. Apps identified by™ or® are trademarks or registered trademarks of their respective companies. For enrollment, cost and more details, see lexus.com/enform. **6.** Always be sure to obey traffic regulations, maintain awareness of your surroundings and all road and traffic conditions. Select apps use a large amount of data and you are responsible for all data charges. Apps and services vary by phone and carrier. **7.** Daily use of Pandora or iHeartRadio may have an impact on your cellular data plan. It is estimated that one hour of streaming Pandora or iHeartRadio consumes roughly 14 to 27MB of cellular data. The other third-party applications, Bing, MovieTickets.com, and OpenTable, are expected to consume a negligible amount of data. You can take a look at the data calculators provided on your cellular carrier's website or speak with your wireless carrier to understand what data plans would fit you the best. PANDORA®, the PANDORA® logo, and the Pandora trade dress are trademarks or registered trademarks of Pandora Media, Inc., used with permission. **8.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions. **9.** Based on EPA-estimated 40/39/40 (city/highway/combined) MPG. Actual mileage will vary. **10.** 17-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending upon driving conditions. **11.** Mark Levinson is a registered trademark of Harman International Industries, Inc. **12.** 18-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. **13.** Do not rely exclusively on the Blind Spot Monitor to determine if a lane change is safe. Always look over your shoulder and use your turn signal before changing lanes. There are several limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions regarding the use of the monitor, please see your *Owner's Manual*. **14.** Lane Departure Alert is designed to read the lane markers under certain conditions and provide visual and audible alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness depends on many factors. See *Owner's Manual* for more information. **15.** The intelligent high-beam headlamps can help improve vision at night. However, conditions such as a dirty windshield, rapidly changing light conditions or hilly terrain will limit effectiveness so the driver may need to manually change the high beams from on to off. Please see your *Owner's Manual* for details. **16.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your *Owner's Manual* for further information/warnings. **17.** Safety Connect is available. Contact with the Safety Connect response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Safety Connect-equipped vehicles. Additional subscription terms available; charges vary by subscription term. **18.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your *Owner's Manual* for further information. **19.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important instructions and cautions. **20.** Whiplash Injury Lessening (WIL) front seats can help reduce the severity of whiplash in certain types of rear-end collisions. **21.** CAUTION! When driving a hybrid vehicle, pay special attention to the area around the vehicle. Because there is little vehicle noise in electric-only mode, pedestrians, people riding bicycles or other people and vehicles in the area may not be aware of the vehicle starting off or approaching them, so take extra care while driving. **22.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance, tire and road conditions. **23.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **24.** To avoid potential interference with pedal operation, do not install a floor mat on top of an existing floor mat, and each mat must be secured with a quarter-turn fastener. This floor mat was designed specifically for use in this model and model year vehicle and SHOULD NOT be used in any other vehicle. **25.** Lexus Genuine Accessory Warranty will only apply when the installation is performed by a trained Lexus-approved installer. If the film is installed by anyone else, the Lexus "Parts Only" warranty-12 months-will be applicable instead. **26.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or SmartAccess fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key or SmartAccess fob, it can be costly to replace. If you lose a key or SmartAccess fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local *Yellow Pages* or by contacting www.aloa.org. **27.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **28.** SiriusXM services require a subscription after trial period. Subscriptions governed by SiriusXM Customer Agreement available at siriusxm.com. **If you decide to continue your SiriusXM service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates unless you call 1-800-967-2346 to cancel.** Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. **29.** iPod is a registered trademark of Apple Inc. All rights reserved. **30.** Bluetooth technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. Other trademarks and trade names are those of their respective owners. **31.** Bluetooth audio device must be enabled with A2DP and AVRCP. **32.** Continuous average power, all channels driven, at less than 0.01% THD; 20-20,000 Hz. **33.** Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **34.** Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your *Owner's Manual* for further details. **35.** The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details. **36.** Coverage only available in the continental U.S. and Canada. Please see your Lexus dealer for details. **37.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather may limit effectiveness and view may become cloudy. **38.** HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. **39.** iTunes and iPod are registered trademarks of Apple Inc. All rights reserved.

*Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
