

Inside Mirror Mount

Lexus RC-F 2015

Awl used to widen the space
for the mirror tap pin

Connector slides
off the black metal
mount for easy
access.

12v switched and
ground are shown
after tap.

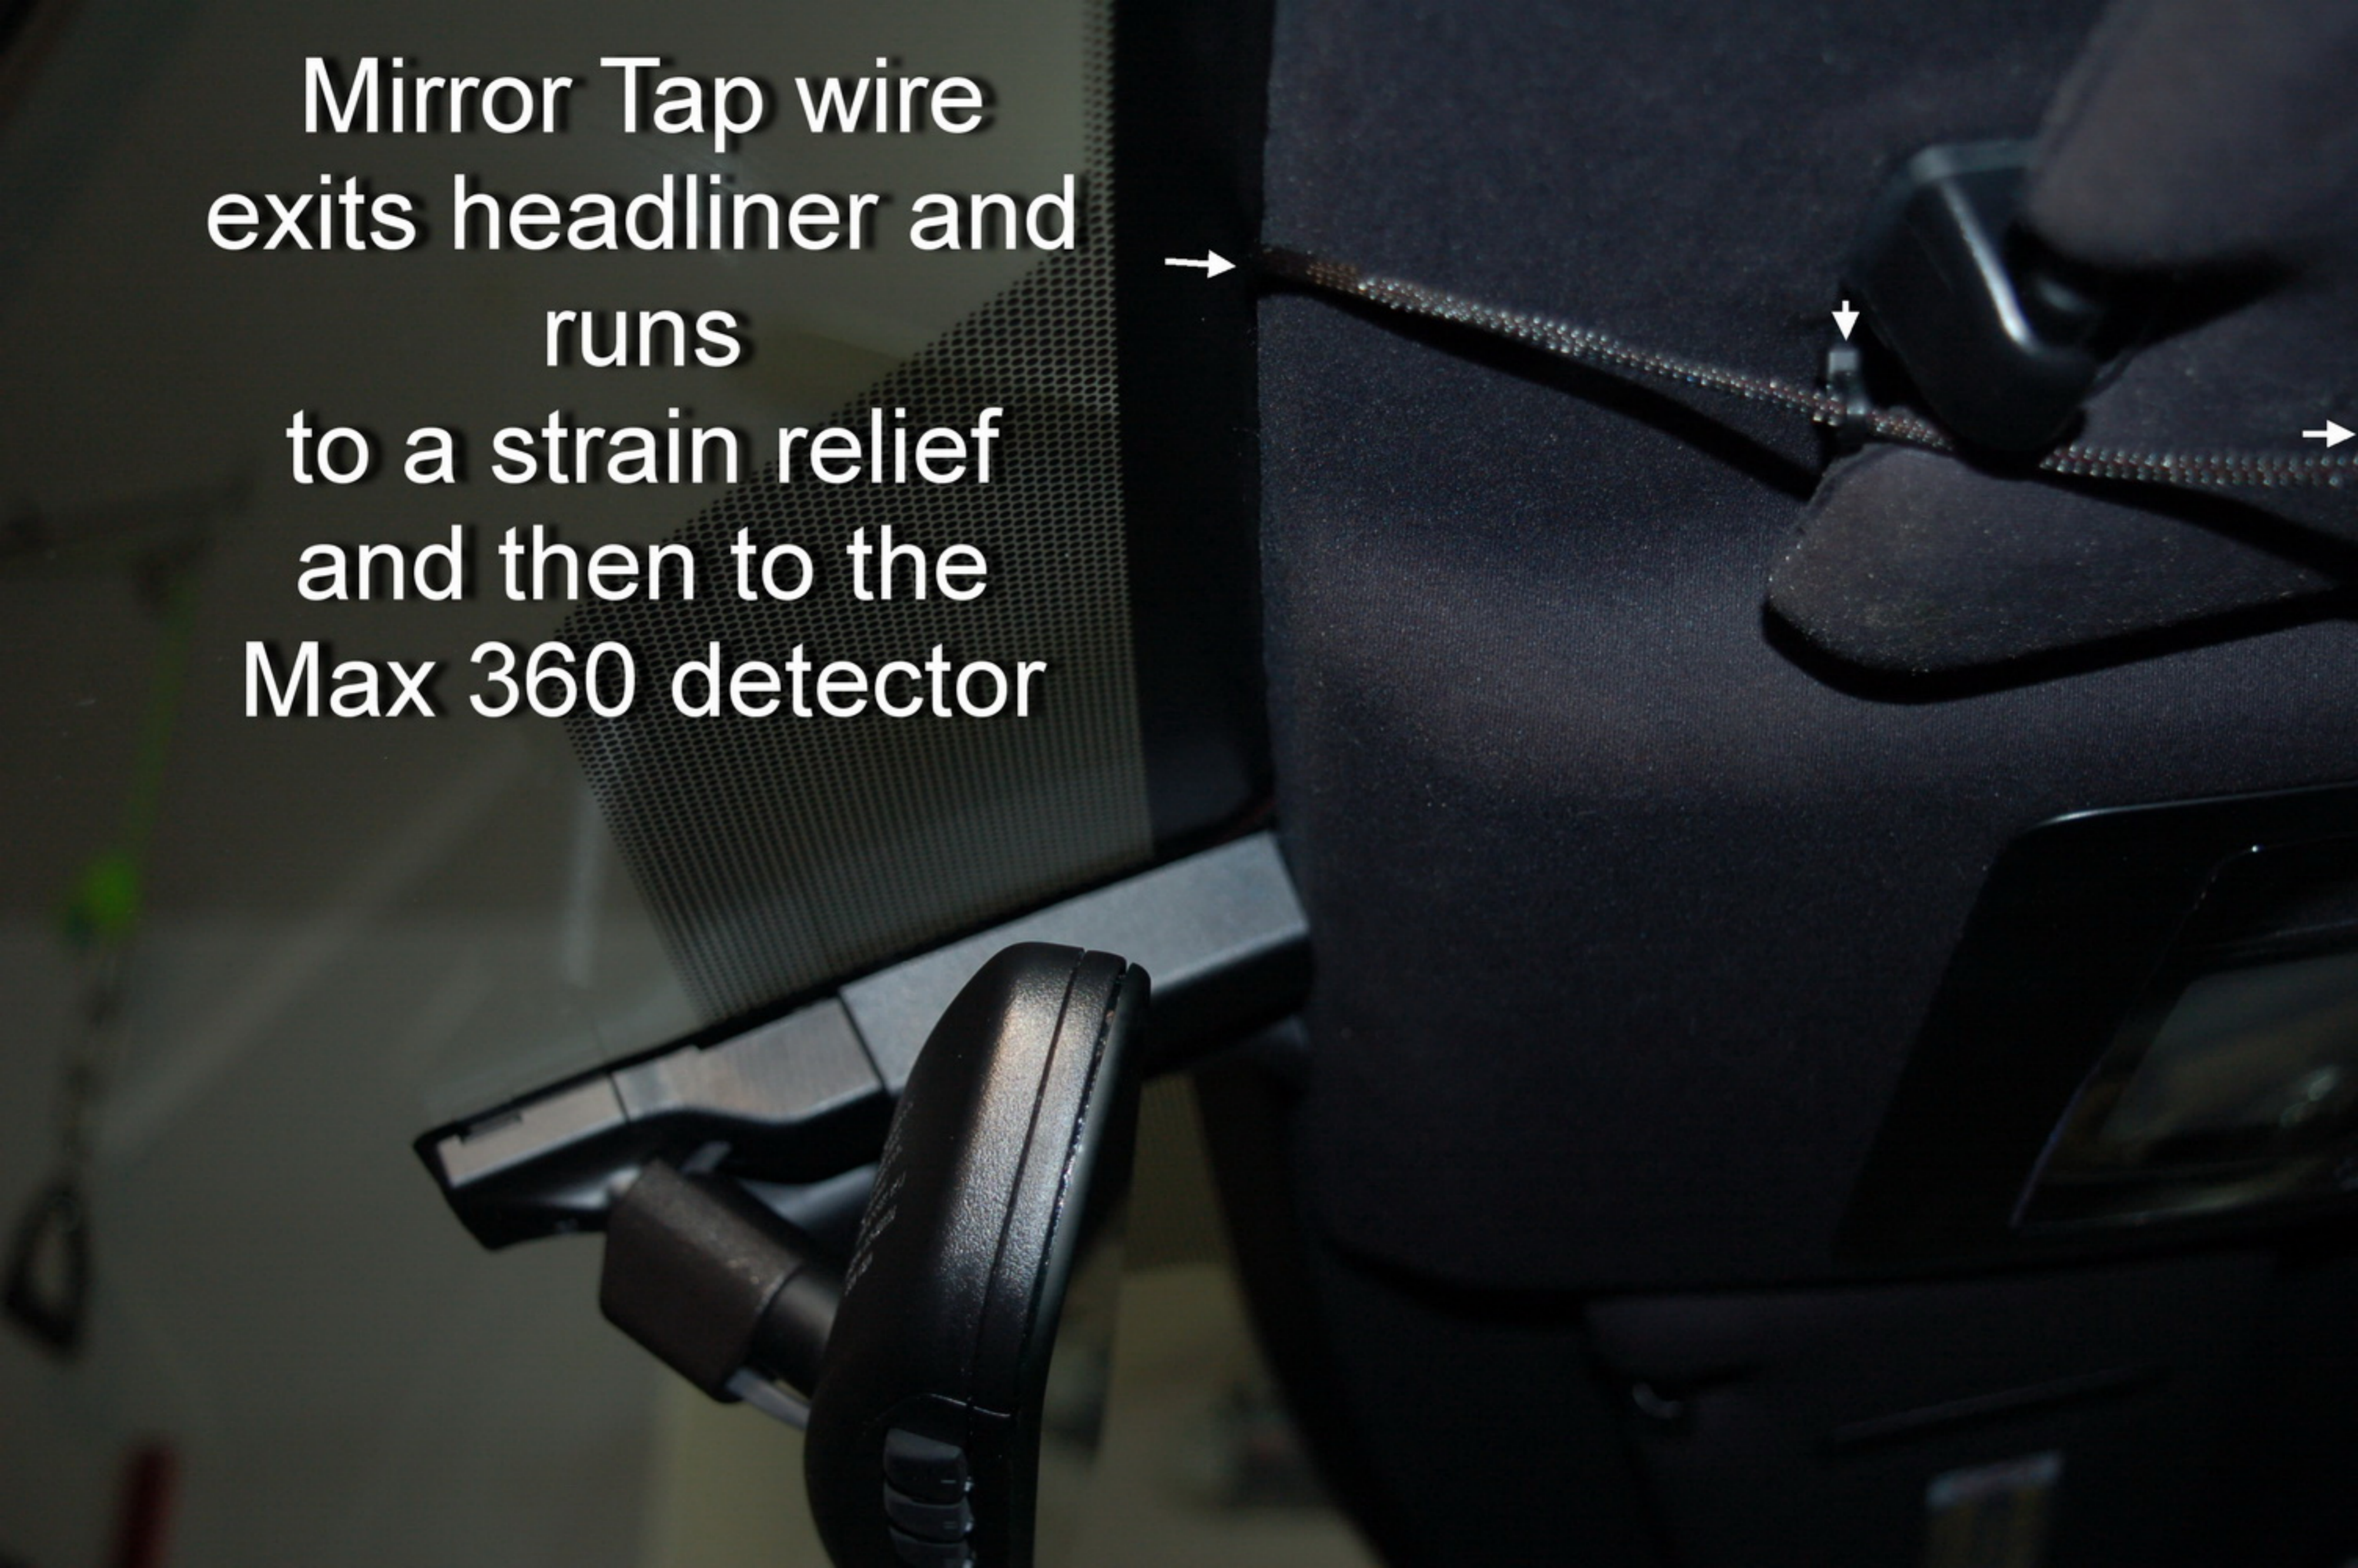

mirror tap wire
to inside of
mirror connector

No mirror tap wires showing
Wire runs up into the headliner

Mirror Tap wire
exits headliner and
runs
to a strain relief
and then to the
Max 360 detector

Strain Relief at the visor retainor

Max 360 with mirror wire tap power
